Welfare Monitoring Feature

This feature can be activated to issue automatic welfare beeps (Are you OK?) to the user's 2-button PAL at scheduled times, without external intervention or cost. If the user responds by pressing the OK button, PANDAH will **not** send any SMS message. If there is no OK button-press response after 45 seconds, an alert SMS message will immediately be sent to the nominated carer/s.

Do you want this feature activated?	Yes / No
--	----------

If YES, please register your welfare call times below eg. **[09:00] [18:00]**
 [:] [:] [:] [:] [:] once only, or up to 5 times per day.

Out of Range Notification Feature

This feature can be activated to alert carers when the user's 2-button PAL loses wireless contact with the PANDAHLINK base unit. If the PAL remains out of range for a pre-set time, an "out of range" SMS message will be sent. A "back in range" SMS message will be sent when the PAL re-establishes wireless contact.

Do you want to receive an out-of-range SMS message?	Yes /No

If Yes, select an out of range time interval	[5 min]	[10 min]	[20 min]
---	---------	----------	----------

Additional Carer/s

The Primary Carer above receives **ALL** alerts including system messages such as mains power fail, low PAL/PAD battery etc.

Additional carers (up to 7) may be registered to receive **HELP** and **OK** messages and any of these may nominate to receive Primary Carer messages also – i.e. **ALL** messages. In addition, if **Welfare Monitoring** has been selected, carers may nominate to receive the **Welfare Monitoring** alert messages.
